

In an effort to be transparent and assist students with their planning, we are sharing the common clinical requirements. These requirements are essential for ensuring that all students are adequately prepared for their clinical placements and can provide safe and effective care to patients.

Common Clinical Requirements*

- CORI
- SORI
- Fingerprinting
- COVID Vaccination
- Flu Vaccination
- TB Screening
- Drug testing
- Hepatitis B Titer demonstrating immunity

Please note that these requirements are subject to change based on clinical affiliation requirements.

*Subject to change based on clinical affiliation requirements.
